What do we do?

Education needs a serious review, not only in terms of "what to learn" but also, "how to learn". That's where we pitch in!

We work with colleges across Maharashtra

MSFDA believes that the larger purpose of education is to develop thoughtful, well-rounded and creative individuals and society (NEP 2020).

Our Values

Experiential learning,
creativity and innovation

Learning beyond
knowledge

Multidisciplinary
education

Diversity and
inclusion

Scientific temperament
and rational thinking

How do we do it?

MSFDA aims to transform the higher education landscape, through continuous professional development of teachers and other stakeholders across Maharashtra through:

- District level orientation to listen, learn and orient
- Engagement with management, leaders, officials, teachers, administrative staff, students
- Institutional approach for process-based intervention with colleges
- Collaboration with academic / professional organisations for cross-sharing of best practices
- Alumni programs to form a community

Centre for Multidisciplinary Curriculum & Pedagogy

This Centre designs and facilitates programs that introduce and appreciate multidisciplinary approach in higher education.
